THE
LAUGHING
WATERS
NEWSLETTER

Kids who want a change

The Change

What's going to happen...

This newsletter was made by **ecolife**, the kids conservation committee of Laughing Waters. Our goal for now is to make Laughing Waters eco-friendly...

To help the environment in Laughing Waters, we have lots of ideas:

This newsletter was made to inform the community about the various projects we have started and hope you will help finish.

Throughout the year, we will have many activities for all ages, including:

- Treasure Hunts
- Bird Watching
- Gardening
- Nature Photography
- And much more

With everything from animal welfare to creating a compost pit. From tree adoption to water conservation. With research libraries and newsletters, we will make a change.

Now.

Who we are

Roohi
Ramya
Parthiv
Rama
Indu
Nihar

We can. We will. Now.

Together

1,188 trees,
48 acres,
1 community.

Together we can reach our goal: 2000 trees.
6 kids are taking initiative.
Can you?
